New Church Anniversary at Stanton

The new United Presbyterian Church at Stanton held its first Anniversary Sabbath morning, December 3rd. Fitting ceremonies were observed in the Bible School under the direction of Superintendent L. O. Knox and his efficient corps of teachers. Out of an attendance of 186 (not including visitors) practically every person in the school took part in the program. There were no "special features" since every class from the cradle roll to the senior Bible classes exhibited the work of each particular department in a most interesting and attractive way.

No "special feature" was made of the birthday offering. Yet this amounted to \$37.71. This offering will be used to complete the furnishing of the church basement for the Primary and Junior Departments of the school.

The Anniversary Sermon was preached by President Campbell of Wesleyan College, Winchester, Ky., on the theme "Has the Gospel a Place in the Life of Today?" The sermon set forth in a masterly way the real necessity for the Church of Jesus Christ in every phase of our multiple life which we are living these days.

The occasion was made more joyous by the announcement at the close of the meeting by the Principal of Stanton College Academy that the New World Movement of the United Presbyterian Church had recently laid up in trust for our Academy an endowment of \$50,000 (Fifty Thousand Dollars.)

The Meeting at Powell's Valley

Elder P. N. Taylor will continue services at Powell's Valley, near the city, for several nights yet. The church membership has been greatly revived under his preaching and have become very active workers. Bro. Taylor is doing his usual strong preaching at this church, and it is having effect. Bro. Taylor is very popular in Clay City as well as with the congregation at Powell's Valley. He is plain, outspoken, not abusive nor offensive to any of his hearers. He creates harmony, not discords, in all his church work.

He is capable of doing great good in this portion of the county.

Chapman's Sale Success

The ten days sale at V. T. Chapman's store was indeed quite a success. The people were hungry for the bargains they know they always get when he pulls off his semi-annual sales. Mr. Chapman is one of Clay City's liveliest merchants and at all times enjoys his full share of the trade.

A Good Rain

The splendid rain which fell Monday and Monday night has done a great amount of good. Small grain is very short for the want of moisture. Grass has also grown but little owing to the dry weather. The fodder has been too dry to shock corn to advantage. The rain has put the river up past fording.

Soon be Ready for More Light

Wm. Bashaw, who makes the electric current for Clay City, is running night and day to supply the town with current, his storage batteries being inadequate for the increased consumption during the day. He has his new engine for the plant, and is daily expecting a larger generator. The lights go dim at nights when the full load is on but just wait till the new machinery gets hooked on.

Ford Expert Here

Jack Tepe, with the Ford Motor Company, of Cincinnati, is here going over the motor of Dr. Martin's roadster. Doctor said it was not going good and asked Joe about it. Joe asked the management about it and the result is that one of the Ford Motor Company's experts is here to see that Dr. Martin is satisfied. Remember this is Ford service.

Town Board Meets

The Town Board met Saturday night and allowed a large number of claims. The 6 per cent. penalty was not added to the large number of delinquent taxpayers. They were given until Dec. 15th to pay and escape the penalty. All taxes not paid by that time will have 6 per cent. penalty added as the law provides.

Farmers' Home Journal

After a brief suspension, the Farmers' Home Journal, of Louisville, appears under new management and improved greatly. The Journal is the only farm paper left in Kentucky out of a half dozen existing five years ago. Every farmer in the state should be a subscriber.

To Repair Bridge

The Powell Fiscal Court has let contract to Geo. B. Leach to repair the floor on the bridge across the river two miles south of Clay City on the Irvine road. Mr. Leach expects to be on this work in the next few days, and it is badly needed.

Moves Drilling Rig

L. B. Rose this week moved his drilling rig from Virden to Pilot where he will drill for oil. This leaves but one drilling rig in the Virden field, that of O. L. Knight.

Ships Horses to Florida

O. L. Daniel yesterday shipped a car load of horses to Florida. The car contained 25 head and will help to dispose of some of the surplus stock of this county.

28 Indictments

The Grand Jury was in session at the recent term of Circuit Court for six days and made 28 indictments.

Thanksgiving was spent very carefully in Powell, or at least we have heard of no accidents resulting to our sportsmen on the hunting field.

Street Surveying

To settle some disputes as to the exact location of some town lots, an engineer was engaged to measure some distances from a stone under the street near V. T. Chapman's store. In some instances property owners were on the streets two feet and more while others were back from the streets. There is no danger of any action being taken to force property owners back off the street since there seems to be already as much streets as can be cared for by the town Board. Any way the survey was beneficial as it informed property owners where their real lines are.

E. O. Tutt and family who left Clay City a few weeks ago for the land of flowers, have located at Ft. Lauderdale, Fla., where they order The Times forwarded.

Little Miss Thresa Sullivan, has returned home from the hospital at Winchester much improved. Miss Alice Hanks has also returned home after an operation, having her tonsils and adenoids removed.

The work on pike is progressing nicely and the scene up Clear Branch can't be excelled in Kentucky. We trust the right-of-way for this road will soon be secured and the pike completed at the earliest date possible.

Charley Centers was sentenced to the State Prison two years for stealing a horse a few weeks ago belonging to Jesse Brown. This is to be regretted as Charley was born and raised in this community and no one thought of his doing such a thing. His mother has the sympathy of the people as a whole, and it is to be hoped he will be a better citizen when he returns.

Mrs. Sis Hall was the first woman to serve on a petit jury in Powell county. Judge W. R. Shuckford called two ladies to act as jurymen during Circuit Court at Stanton last week. Mrs. Minnie Faulkner was first called and rejected by C. F. Spencer, attorney for defendant, as she is a State member of the Women's Christian Temperance Union, and the case to be tried was a young man charged with being drunk and disorderly at church. He was found not guilty.

Fayette County Rejects

25 Cent Levy

Property owners of Fayette county consolidated schools voted down by an overwhelming majority the proposal to levy a tax of 25 cents per \$100 upon property owners for supplying transportation to and from school for children living in the consolidated districts. The levy was defeated by a vote of 349 to 55, the smallest majority being polled in the Faulconer and Russell Cave districts. The levy was defeated by a four to one majority.

Fayette county has her consolidated schools, and a debt of \$100,000 endeavoring to send her children to these schools, and no way to get the children to them now. This county is in a wonderful stir and worry over the schools. Forty years ago the only thing necessary was to send the children, and if they had a sound mind and were submissive to the teaching, they got along. One hundred years ago, people were also educated with little effort. Buxton, Maine recently celebrated its 150th anniversary, and among the happy recollections of the past, dated back to 1780 when the little church of the town had the Rev. Paul Coffin as its pastor, who, although 23 years old, was master of Latin, Greek, Hebrew and French. Our schools of this date should be as proficient, but they are not. They could be as well now as ever, but for the grunters and agitators. They would be best off however, if every law passed in the past thirty years were repealed.

Winter Gatherings Spread Disease

Sneezing and coughing at indoor gatherings spread disease. The first symptoms of, or long standing coughs, colds, croup, throat, chest and bronchial trouble are quickly relieved with Foley's Honey and Tar. Contains no opiates—ingredients printed on the wrapper. Sold everywhere.

Stout Whiskey

The whiskey that J. D. (Cooley) Webster drank before he shot and fatally wounded John Wells, 60, a painter literally burns up meat soaked in it. County officials made a test of the liquor and will ask for an indictment for the bootlegger alleged to have sold it to Webster, provided a chemical analysis reveals lye or other poisonous matter in the whiskey.

Meat dropped into a sample of the liquor Webster said he drank was described as burning, the meat as if it had been held in a flame. Pieces of beef and liver were placed in the whiskey, county officials say. Whiskey because of the absence of destructive acids, tends to preserve rather than destroy meat, experts say, and indications are that lye is present in the liquor Webster says he drank.—Winchester Sun.

More cars of coal come down the road this week, but we have not heard of the price coming down yet.

Miss Ola Burgher, eldest daughter of Mr. and Mrs. J. W. Burgher, and Mr. John McPherson, son of J. L. McPherson, were married the past week in Winchester at the Brown-Proctoria Hotel. After the nuptial knot was tied the happy pair motored to Mack Gravett's home in Clark county where they spent a few days honeymooning. The bride and groom are both of high estimable characters and we see no reason why they could not make a lovable home. Congratulations.

"I USED Cardui for years and it did me more good than any medicine I ever used," writes Mrs. M. C. Ragsdale, of Fort Towson, Okla. "I used to suffer with womanly trouble that weakened me until I was a mere shadow, nervous, and could not sleep. I did not feel like I could live."

"It seemed that nothing helped me till I heard of Cardui and began to use it. It

strengthened me and, as 'twas recommended to do, it regulated and built me up till I was like another woman."

If you are weak, run-down and feel that you need a tonic, take Cardui, the woman's tonic, the tonic about which you have always heard, the tonic that helps weak women regain their strength.

Cardui acts on the womanly system and helps relieve pain and discomfort due to female ailments.

Few Apple Trees Escape

San Jose Scale Damages

San Jose scale, one of the bad fruit tree pests, is just as serious, if not worse, in Kentucky apple orchards at the present time as it ever has been, according to A. J. O'ney, of the horticultural department of the College of Agriculture. The scale attacks the trunks, limbs, twigs and fruit and often cuts the yield of apples heavily before farmers notice it. Spraying with lime sulphur at this time of the year when the leaves are off the trees is the best way to control the pest. One part of the commercial lime sulphur should be used to eight parts of water.

Farm Cows Now Making

About 25 Cents a Day

Thousands of Kentucky farmers who are keeping a few cows from which to sell cream are facing the necessity of cutting down on rich protein feeds and using only those that are grown on the farm in order to get a fair return from their animals during the coming month, dairymen at the College of Agriculture say: At present prices being paid for butterfat, the average farm cow is returning about 25 cents a day. With such feeds as cottonseed meal and linseed oil meal selling around \$3 a hundred pounds and mill feed and bran ranging around \$40 a ton, the farmer cannot feed them and have anything left to pay him for the work he spends on his cows. The best the farmer can do under present conditions is to supplement his rough feed and silage and legume hay with grain raised on the farm such as, broken ear corn, shelled corn, corn and cob meal, if this can be crushed, or crushed barley.

Thanksgiving Party

Mr. and Mrs. Sam Carr entertained Thursday evening at their beautiful large home, in honor of their neice, Miss Dorothy Nelson, also Miss Mary Nelson. The house was decorated with beautiful potted foliage. There were several different games played, after which a refreshment of brick ice cream and cake was served. Everyone had an enjoyable evening. The guests were:

Misses Mary Nelson, Dorothy Nelson, Grace Martin, Lillie Ruth and Orpha Burgher, Edvina Dunaway, Bulane Clark, Marie Pettit. Misses Mina Conlee and Dorothy Hall, of Rosslyn, and Misses Alice, Mamie and Blanche May, and Mrs. Gamboe, all of Pilot View. Messrs. Troubled With Weak Kidneys

"Have been troubled with weak kidneys since childhood," writes Mrs. G. Hyde, Benzonia, Michigan. "Now past forty and have had terrible backache and that tired out feeling, hardly able to do my work. By using Foley Kidney Pills accompanied with Foley Cathartic Tablets I soon felt like a new person." Sold Everywhere.

Decline in Egg Prices

The release from cold storage put a check to upward prices on eggs the last of the week, and they went off six cents a dozen in a single day. Cream holds its own well and is now bringing 50 cents per pound on the market. Every farmer who has cream and eggs to sell had money to pay his tax while many who did not have these ready sellers had to borrow money to save the penalty.

Building Boom in Louisville

Go Slow in Your Autos

Nine were injured last week in an auto wreck between Paris and Cynthiana, and Saturday night five young men started from Louisville to Lexington. One of them was killed and the other four seriously injured in a wreck. "Go slower" is sound advice to the speeders.

The Banks' Tax Situation

A few years back the law in Kentucky was that all property should be taxed at the same rate. The moneyed interest got a move before the Legislature and got a vote on an amendment to the constitution to provide that property may be classified for taxation, each class paying different amount. The Times fought the amendment bitterly, but it carried in the state, resulting in cash and notes, bonds and etc., being taxed at from 10 cents to 40 cents on the hundred dollars. The banks have been being assessed at 80 per cent of their total capital and surplus, but since the burden has grown so great, they have invoked the benefit of the law which places the low rate on loans and discounts which means that in the future the banks will pay no county or city tax, if they win their suit in Federal Court, and they will.

The only remedy is, back to the old constitution. It is the only fair method.

Standard Oil's Riches

The Standard Oil Company of Kentucky has 5,000 stockholders. Their capital a few months ago was \$6,000,000, when a stock dividend of \$6,000,000 was declared, making the capital \$12,000,000. This company has just announced a cash dividend of 20 per cent and an additional stock dividend of \$5,000,000. This is making some money, despite the hard times for many other people.

Grandchild had Croupy Cough

"My grandchild could get no relief whatever from a very bad croupy cough," writes Peter Landis, Meyersdale, Pa., "until I gave him Foley's Honey and Tar. Coughs, colds, croup, throat, chest and bronchial irritations quickly relieved with Foley's Honey and Tar. Sold Everywhere."

The Federal Land Bank at Louisville has loans to the farmers of its district amounting to \$56,000,000. This bank loaned \$2,500,000 during the month of October this year.

Several correspondents have to be omitted this week for lack of space, but they will be inserted next week.
